

3mm Bleed Zone - any Bleed on your artwork needs to run to the edge of this area

Safe Zone - 4mm from Trim Edge

All text, logos and other important elements need to be within this area.

The Perforation position on the reverse side is at the opposite end – make sure to allow for this when creating your design

Binding clearzone for books must be at least 10mm from right edge on the reverse

Trim Line - Finished print size 210x99mm
