

3mm Bleed Zone - any Bleed on your artwork needs to run to the edge of this area

**Safe Zone - 4mm from Trim Edge**

**All text, logos and other important elements need to be within this area.**

The Perforation can be positioned anywhere but on Ticket Books it tends to be near the binding edge – remember that the perforation is at the opposite side on the reverse

Trim Line - Finished print size 210x99mm

Binding clearzone for BOOKS must be at least 10mm from right edge on the reverse
